2. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW

Signal Word: WARNING!
Physical Form: Liquid
Color: Yellow
Odor: Odorless

Health:	May cause skin sensitization which may be seen as redness or inflammation. The reactive dye in this product has not been shown to cause allergic respiratory reactions in workers. However, since certain other reactive dyes have caused allergic reactions, a physician should be called if a worker experiences symptoms such as skin rash, puffiness around eyes, nasal symptoms (itchy, runny or blocked nose), lower respiratory symptoms (wheezing, chest tightness, difficulty in breathing or asthmatic attacks), dizziness or fainting. Persons allergic to reactive dyes should avoid exposure to them.. Contains caprolactam, which is an eye, skin, and respiratory tract irritant and is harmful if swallowed or absorbed through the skin. Caprolactam produced nervous system disturbances (including tremors and convulsions) and cardiovascular effects (an initial increase, then a decrease in blood pressure; increased respiratory rate) in laboratory animals. Overexposure to caprolactam in humans has been associated with dermatitis, nausea, vomiting, and seizures..
Physical Hazards:	None known.

OSHA Hazardous Substance: This material is classified as hazardous under OSHA regulations.

4. FIRST AID MEASURES

Eyes:	Immediately flush the eye(s) with lukewarm, gently flowing water for 15 minutes or until the chemical is removed. Get medical attention.
Skin:	If clothing is contaminated, remove and launder before reuse. Wash off immediately with soap and plenty of water. Get medical attention if irritation occurs.
Inhalation:	Remove to fresh air, if not breathing give artificial respiration. If breathing is difficult, give oxygen and get immediate medical attention.
Ingestion:	Do not induce vomiting. If vomiting occurs naturally, have casualty lean forward to reduce the risk of aspiration. Seek medical attention immediately.

5. FIRE FIGHTING MEASURES

Fire Fighting Measures:	Standard procedure for chemical fires.
Suitable Extinguishing Media:	Carbon dioxide, dry chemical or foam.
Fire Fighting Equipment:	Wear self-contained breathing apparatus and protective suit.
Hazardous Combustion Products:	Burning may produce toxic combustion products.

6. ACCIDENTAL RELEASE MEASURES

Cleanup Instructions:	Absorb spill with inert material (e.g. dry sand or earth), then place in a chemical waste container. Wear suitable protective equipment. Should not be released into the environment.
