QUALITY IMAGES, WITH OR WITHOUT YOUR PC. IT'S AS EASY AS 1-2-3

1.

Transfer and download images from a PC or built-in compact flash card reader.

(flash card not included).

2.

Position garment on adjustable platen.

3.

And just press the print button!

WOW!

Just cure with the heat press you're ready to go!

THE NEW GT-541 GARMENT PRINTER

IF YOU CAN IMAGINE IT, YOU CAN PRINT IT.

Imagine a garment printer that allows you to print directly from your computer or from a flash card, without all the set-up mess or high cost of traditional screen printing machines. Our new GT-541 "Print on Demand" Inkjet Printer prints on most garments in full color, with a large 14" x 16" printable area. It's as simple to operate as a desktop printer and consistently delivers high-resolution print quality. It is faster and less expensive to operate than traditional screen printing machines because there is no extensive set-up, teardown, clean-up screens, squeegees, or pallet adhesive. The durable water-based inks withstand repeated washings and can be cured by a standard heat press, eliminating the need to purchase a conveyer dryer.

The GT-541 is designed for garment printing. Matching ink and print heads were developed specifically for printing on cotton and cotton/poly blended materials. It's what you've come to expect from a leader in inkjet printing technology.

INK CARTRIDGES & PRINT HEADS

Water based pigment inks have been formatted and tested for use with GT-541 print heads.

ADJUSTABLE PLATEN

Adjustable platen allows for varying garment thicknesses.

CONTROL PANEL

Use the intuitive control panel to set the process in motion. LED displays the name of the file and palette size, ink cartridge levels and ink usage per print.

COMPACT FLASH DRIVE

Built-in compact flash card reader so you can transfer images without a PC. (flash card not included).

minimal software required

Print driver only; no RIP required.

THE GT-541 ADVANTAGE

- Full Color Photographic Quality Output (600dpi)
- Fast Set-up and Production Time
- Low Printing Cost
- Simple Operation – Short Learning Curve
- Print One or Many Garments Cost Effectively

BROTHER GT-541 GARMENT PRINTER
