

Brother

All New and Unprecedented Programs

The Brother GT series of printers continue to set the standard for quality, production and durability within the direct to garment community and now Brother has taken it a step further.

On Brother's GT-541 4-color (CMYK) digital printer, \$19,995 retail, they've announced for a limited time, \$3,200s in instant rebates. In addition Brother is so committed to helping their customer's succeed and to save you even more cash they've introduced 0% leasing option. The leasing program is a 24 month NO INTEREST lease with a \$1 buyout – that's \$699 a month for two years and you own it.

Never has such a small start-up cost had the potential to yield such a high return. With an average cost per print at \$0.30*, the opportunity for your success is there for the taking. And with ITNH and Brother at your side, rest assured no other companies work harder to help you succeed.

For those companies that require added production capabilities, along with that ability to print with white ink, the Brother GT-782 five-color (CMYKW) digital printer is unsurpassed in throughput, quality and of course Brother's renown reliability. For the first time since it's introduction, Brother will be offering over \$1,000 in instant rebates on the GT-782. In addition Brother is extending a 0% interest program for 36 months with a \$1 buyout. That's \$1,499 a month for three years with NO INTEREST. This is a limited time offer so take advantage while you can.
